

“DESIGN YOUR PERFECT AIRCRAFT” ART CONTEST DEADLINE IS JANUARY 10, 2022

Have you ever drawn a picture of an airplane, helicopter, or hot air balloon and added some extra details? Maybe, you started drawing a glider and ended up with a super-powered jet that could take you, your favorite pet, and your friends into space. Maybe you mixed and matched, combining the best features of different types of aircraft to create something unique. Every great aviation idea starts in the imagination of a person who wants to see something new in the sky. Drawing from aviation’s past, these visionaries create aviation’s future.

Today’s aircraft are the work of hundreds, sometimes thousands, of people who turn ideas into aircraft that fly. Engineers put ideas onto paper. Manufacturers turn those drawings into real-life parts that get put together and become today’s balloons, gliders, aerobatic planes, microlights, and helicopters. Each new version is improved for safety, aerodynamics, fuel efficiency, or a thousand other major and minor changes that put smiles on the faces of pilots and passengers alike. What is your perfect aircraft? What would power it through the sky? Would it be big or small? What special features would make pilots and passengers excited to be in the air? Let your imagination soar and create a work of art that fits the theme, “Design your perfect aircraft.” Grab your favorite pens, paints, or crayons and share your vision of the perfect aircraft. Your art today might become an inspiration for tomorrow’s aviation reality.
